## Show Home Design Service

---

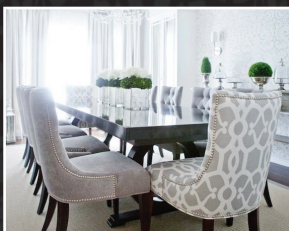

Vogue Interior Design specialise in designing and creating stylish, sophisticated, opulent, elegant interiors, from one-bedroom apartments to mansions. We offer a full and professional Show Home design service on a room-by-room or whole house basis. Our highly skilled creative team work in partnership with our clients to achieve a stunning show home design suited to the target housing audience.

The Show Home design service takes you from initial design ideas and concepts through to implementing the d  cor. We fully project manage the scheme; sourcing and installing all furniture, artwork, accessories and window treatments. Quality and attention to detail is paramount.

We have a network of highly skilled painters and decorators, curtain fitters, carpenters, builders, plumbers and electricians, as well as seamstresses who make high quality, exquisite soft furnishings including headed curtains, blinds and cushions.

We have access to an extensive range of fabrics, furniture and accessories from which to create your stunning show home. Fabrics are sourced from the most prestigious design houses such as Designers Guild, Osborne & Little, Sanderson, Ralph Lauren, Vivienne Westwood, Romo, Zinc, Harlequin and Andrew Martin, to name but a few. We can supply all types of hard and soft furniture and can have pieces made or re-upholstered. To complete the design we also supply and professionally install lighting and accessories.

As part of our design service we offer high quality made to measure soft furnishings including: fully lined and weighted hand-sewn headed curtains, with a range of linings Roman blinds, headboards, pelmets and cushions.
